

PRESS RELEASE –

NEW OB-GYN DOCTOR INVITES COMMUNITY TO OPEN HOUSE

FOR IMMEDIATE RELEASE – 02/01/07

**Contact: ANN BOYD
(931) 808-3100**

Caring for a pregnancy takes tender nurturing, but a depth of experience best handles an unforeseen problem. McMinnville now has a seasoned Obstetrician / Gynecologist with a medical background who will meet such a need.

For three decades Dr. Ernest Mak has distinguished himself as an Ob-Gyn who has delivered literally thousands of babies including his own child. This month, he is hanging out his shingle in family friendly McMinnville, where he can provide the care to expectant mothers and their babies that they well deserve. He's sees himself as a woman's medical partner, helping her navigate through all the stages of her reproductive years and beyond.

On February 8th, 2007 Dr. Ernest Mak invites prospective patients and family to an open house between 1:00 and 6:00 PM to meet the new doctor in town. Dr. Mak's is on staff at River Park Hospital. His office is on the hospital's campus at 1589 Sparta Street, Suite #101 McMinnville, TN 37110. You'll be able to see first hand that Dr. Mak bases his medical practice on what he calls the four A's – Ability, Affordability, Amicability, Availability .

Dr. Ernest Mak is board certified by the American Board of Obstetrics and Gynecology. Raised in Southern California, he earned his BA in Microbiology from UCLA at the age of 20. He graduated from the University of California School of Medicine in San Francisco. Dr. Mak completed his internship and residency at Los Angeles County University of Southern California Medical Center, one of the largest maternity hospitals in the United States. There he learned how to successfully manage pregnancies complicated by severe medical problems. Following his residency Dr. Mak had a role in developing one of the first natural birthing centers in Los Angeles.

A happily married father of two, Dr. Mak decided to leave the big city woes of Los Angeles by moving to Bastrop, Louisiana where he practiced medicine for twelve years. The amicability of small town living has brought him to McMinnville, where he can now provide women with the kind of patient care equal to those in major urban centers. He's a doctor who listens to patient's concerns and responds by informing them on their therapeutic options.

Dr. Mak offers a full spectrum of gynecological treatments based on proven techniques. Experience is the key to timely diagnosis. Recognizing female disorders in early stages allows for a more successful remedy. Dr Mak relies on medical or office therapies whenever appropriate; favoring minimally invasive techniques if surgery is warranted.

In addition to a full range of obstetrical and gynecological procedures Dr. Mak also provides diagnosis and initial treatment for infertility services.

As a former gynecological consultant for the Adolescent Clinic at Children's Hospital in Los Angeles Dr. Mak has a special interest in adolescent gynecology issues.

Office hours will be a full Monday-Friday work week with occasional Saturday hours. Dr. Mak is constantly working to accommodate a broad range of insurance carriers as well as Medicare and TennCare. Drop by the open house on February 8th or call for an appointment at (931)-815-8300. Dr. Ernest Mak looks forward to meeting you.
