MAP Presidential Award Winners

Award recognizes excellence in management

SHERMAN OAKS, CA July 25, 2006 – Management Action Programs, MAP, renowned for its business leadership training, announced the winners of its 2005 Presidential Award.

This prestigious honor is granted annually to a few select companies that have achieved business excellence by embracing the MAP system of management. The award winners were selected based upon the following accomplishments:

- Establishment of consistent, effective leadership that provides clear direction
- Significant year after year improvement in their Vital Factors, the critical elements that lead to success
- Implementation of the MAP management system throughout their organizations
- Reinforcement of company values through the consistent action of management and employees

Although MAP's focus is business leadership training, each company singled out for this honor did so only with the hard work of its executives, management team and employees. MAP congratulations all for this achievement
