To Whom It May Concern:

Hired originally as a producer, Mr. Paul Suchecki soon showed that he could also shoot and edit. As a cameraman he worked in the studio on numerous cut-live shows like the Emmy-winning program "LA Roundtable" and "Disability Forum." In the field, he shot as an ENG cameraman for our weekly news magazine show "LA This Week" and documentaries like "Trading Dirt" at the Watts Towers.

He wrote, produced, directed, edited, and hosted the ½ hour documentary "Outdoor Electrical Safety" which won the 2008 Los Angeles Area Emmy Award for Instructional Programming.

On camera, he was invited to participate as a guest on "Aging in LA" which is produced by the City of Los Angeles' Department on Aging. In this segment, he discussed his award winning documentary feature "Reverse Aging Now." Additionally, Paul has written, produced, and directed several public service announcements for the Los Angeles Department of Water and Power.

As of this writing, he is in his fourth year at LA CityView 35. He is currently putting the final polish on a ½-hour documentary about energy and water conservation that he is writing, producing, directing, and editing.

Paul has demonstrated a track record of being dependable, budge-conscious, and creative. I highly recommend him for employment in this field of work.

Sincerely,

Tony Ighani  
Station Manager,  
LA CityView 35
